Rio Grande do Sul, Brazil (UTC-3) · Remote, overlaps with US and EU hours

Full Stack Product Engineer (Go, React, TypeScript) with 6+ years on high-concurrency SaaS. I ship AI-native features end to end, from customer conversations to rollout, and work in English with EU and US teams every day.

Skills

- **Languages:** TypeScript | JavaScript | Go | Ruby | Python | PHP | SQL
- **Frontend:** React | Next.js | Vue | Nuxt | Vite | Three.js
- **Backend & Infra:** Node.js | NestJS | Ruby on Rails | MySQL | Redis | Firebase | Docker | Kubernetes | AWS | Azure | CI/CD
- **AI & Testing:** OpenAI, Gemini & Anthropic APIs | LLM Integration | Jest | Vitest | Cypress | RSpec | TDD

Experience

Software Engineer [HiPeople](#) *Berlin, Remote* **07/2025 - Present**

- Build and scale AI hiring features with **Generative AI** (OpenAI, Gemini, Anthropic) across **5 AI-native products**.
- Led a front-end performance overhaul, cutting the initial JavaScript payload by **65% (>1 MB)** and raising Lighthouse from **18 to 60+** with lazy loading, dynamic imports and better chunking.
- Cut weekly errors by **85%** with monitoring and root cause analysis, improved **p99 latency by 35%** by optimizing queries and indexes.
- Own features end to end with **React, TypeScript, Next.js** and **Go**, from requirements and customer conversations to rollout, using AI-augmented workflows (Claude Code) and shipping to production daily.

Mid-Level Software Engineer [Fullstack Labs](#) *Chicago, Remote* **11/2024 - 07/2025**

- Collaborated with an international and cross-functional team in the development and maintenance of the **BenchPrep** certification platform, using **Vue, Nuxt, Vuetify, and Ruby on Rails**, delivering scalable interfaces from Figma.
- Managed **PostgreSQL, Docker/Kubernetes** environments, and created E2E test pipelines with **Jest, Cypress, and RSpec**.
- Optimized the CI/CD process with Codefresh, increasing test coverage by **25%** and implementing integration tests that covered **70%** of Docker-based endpoints, following TDD and Agile methodologies.

Full Stack Software Engineer [Minha Visita](#) *Novo Hamburgo, RS (Hybrid)* **09/2021 - 11/2024**

- Built and maintained a cross-platform app with **Vue, Quasar** and **Capacitor**. Led the migration of a large codebase from **Vue 2 to Vue 3** and built the notification system from scratch.
- Owned the **Mercado Pago** integration (~R\$50K/day), led partner calls in Portuguese and Spanish, and made CI builds **75%** faster.
- Developed backend APIs with **NestJS, PHP, Firebase, Redis, GraphQL** and **MySQL**.

Full Stack Developer Trainee [Scopi](#) *Taquara, RS* **01/2021 - 09/2021**

- Contributed to Scopi, a strategic planning platform, developing new modules with **AngularJS, Firebase**, and **React Native**.
- Maintained and structured APIs in **Rails** and **Node**, handling **MongoDB/SQL** operations and **AWS** environments under Agile/SCRUM.

Education

Undergraduate Degree in Systems Analysis and Development [Unisinos](#) *São Leopoldo, RS* **03/2021 - 12/2025**

- Graduated with a 90%+ average.

Integrated Technical Course in Informatics [ETEC Monteiro Lobato](#) *Taquara, RS* **03/2018 - 12/2020**

- Foundational training in programming, logic, and web development.

Projects & Languages

- **Supra CRM:** A CRM for small retail stores, already used by 3 businesses. I build and maintain all of it myself. Live at supra-crm.com
- **JSON Searcher:** **Visual Studio Code** extension used for searching paths within JSON files, with 1,200+ downloads.
- **Interactive Portfolio:** My portfolio, built with **Vue, Vite**, and **Three.js**, featuring a 3D avatar you can chat with. Live at matheusdias.dev
- **Languages:** Portuguese (Native) | English (Fluent, MET Certificate) | Spanish (Intermediate)
